

Zeki Tazegul

IT PROFESSIONAL

Desktop Support Engineer | QA Engineer | System Administrator

Poortugaal – Rotterdam, Netherlands | +31 6 44955335 | zekitazegul@gmail.com

PROFILE

Enthusiastic and service-oriented IT professional with practical experience in desktop support, workplace management, hardware and software support, and technical troubleshooting.

Experienced in installing, configuring, maintaining and repairing laptops and workstations, as well as supporting end users with daily IT problems.

I am used to analysing technical problems independently, supporting users directly and explaining solutions clearly. I work accurately, solution-oriented and independently and feel comfortable in an onsite environment with direct end-user contact.

My combination of practical hardware experience, IT knowledge, software testing and Dutch language skills makes me suitable for Desktop Support, Deskside Support and PC Migration positions.

CORE SKILLS

Desktop & End-User Support: Onsite end-user support; workplace management and user support; laptop and desktop installation and configuration; hardware installation, maintenance, repair and upgrades; software installation and configuration; Windows 10/11; hardware and software troubleshooting; technical problem solving; technical user support; user instruction and technical explanation.

Device Preparation & Migration: Preparing and configuring laptops and workstations; Windows installation, configuration and updates; installing and configuring required software; hardware checks and maintenance before deployment; repairing and preparing defective laptops for reuse; supporting users during and after device replacement; hardware upgrades and maintenance; systematic documentation of technical work.

IT & Technical Skills: Windows 10/11 installation, configuration, migration, updates and troubleshooting; computer hardware repair and upgrades; Microsoft 365 / Office; Python, Java, MySQL; HTML / CSS / JavaScript; Playwright, Postman, k6; Git & GitHub Actions; API testing and technical analysis.

PERSONAL COMPETENCIES

Service-oriented and customer-focused IT professional with a practical, solution-oriented mindset. Comfortable working independently and taking responsibility for assigned tasks, while contributing effectively as part of a team. Open to change and able to adapt quickly to new technologies, systems, processes, and working environments. Professional and calm under pressure, with strong communication skills, attention to detail, and a strong commitment to continuous learning and improvement.

WORK EXPERIENCE

ICT Administrator

Wereldwijs Basisschool Rotterdam | April 2024 – Present
