

ZEKI TAZEGUL

IT PROFESSIONAL

ICT Coordinator | IT Support | School IT & End-User Support

zekitazegul@gmail.com | 06 44955335

Poortugaal – Rotterdam

PROFILE

Motivated and service-oriented IT Professional with hands-on experience in ICT administration, end-user support, device management, troubleshooting and IT environments within education.

Experienced in supporting staff and users with daily IT needs, installing and maintaining computers and IT devices, troubleshooting hardware and software issues, preparing devices for use and supporting a reliable digital working environment.

Practical experience in managing ICT within a school environment, including establishing and managing a computer laboratory with 20 PCs and supporting the school network. Comfortable coordinating technical tasks, prioritizing user needs and explaining technical solutions clearly to non-technical users.

Additional experience as a Software Tester / QA Engineer within a professional Enterprise Application Project, providing strong skills in structured problem solving, requirements analysis, documentation, collaboration, testing and technical communication.

Able to work independently while collaborating effectively with colleagues, developers and end users. Adaptable to changing environments and motivated to continue developing knowledge of modern Microsoft technologies, endpoint management and IT service delivery.

Microsoft 365 | Microsoft Office | Python | Java | TypeScript | JavaScript | SQL / MySQL | HTML | CSS | REST APIs | OpenAPI | Git | GitHub | GitHub Actions | Playwright | Postman | k6

MODERN IT & DEVELOPMENT

Microsoft Intune – ongoing training | Microsoft 365 E5 – ongoing training | CI/CD | Test Automation | AI-assisted IT & development workflows

PROFESSIONAL EXPERIENCE

ICT ADMINISTRATOR

Wereldwijds Basisschool – Rotterdam | April 2024 – Present

- Provide daily ICT support to staff and users within a primary school environment.
- Coordinate and handle day-to-day technical issues involving computers, software and IT devices.
- Diagnose and resolve hardware, software and connectivity problems.
- Install, configure, maintain and deploy computers and other IT devices.
- Prepare devices for users and ensure computers are functional and ready for use.

- Perform Windows updates, software installations, system configuration, repairs and hardware upgrades.
- Support non-technical users by explaining technical issues and solutions in a clear and practical way.
- Identify recurring technical problems and implement practical solutions.
- Prioritize technical issues based on user needs and operational impact.
- Contribute to maintaining a reliable and usable ICT environment for staff and users.
- Apply structured troubleshooting and problem-solving methods when resolving technical issues.

SOFTWARE TESTER / QA ENGINEER

Motopp – Amsterdam | 2026

Completed an IT traineeship with practical experience as a Software Tester / QA Engineer within a real-world Enterprise Application Project (EAP).

- Worked within a professional software development and Agile/Scrum environment.
- Analyzed User Stories and requirements and translated them into structured test scenarios and test cases.
- Used Jira to organize QA activities, manage subtasks, track progress and report defects.
- Worked with OpenAPI contracts and API specifications to validate application functionality.
- Developed and executed automated UI and API tests using Playwright and TypeScript.
- Performed REST API testing using Postman.
- Investigated application failures, unexpected behavior and technical defects using structured analysis.
- Performed root-cause analysis and documented findings clearly.
- Collaborated with developers to investigate problems and verify fixes.
- Performed functional, regression, integration and end-to-end testing.

- Performed security-oriented testing including authentication, authorization, RBAC, IDOR, SQL injection, XSS, rate limiting and abuse protection.
- Used Git, GitHub and GitHub Actions for version control and automated workflows.
- Developed and executed k6 load, stress and soak tests and analyzed performance results.
- Integrated ChatGPT and Claude Code into technical workflows to support analysis, troubleshooting, test development and problem solving while maintaining independent validation and critical thinking.

ADDITIONAL TECHNICAL EXPERIENCE

HARDWARE & SOFTWARE SUPPORT

Motopp – Amsterdam | 2026

- Repaired and investigated defective laptops and computer hardware.
- Performed component checks, hardware upgrades and component replacements.
- Tested repaired devices to verify functionality.
- Prepared devices for reuse after successful testing and troubleshooting.
- Used a systematic approach to identify and resolve hardware and software issues.
- Worked independently while documenting and validating technical solutions.

VOLUNTEER PYTHON INSTRUCTOR

AZC Echt | April 2023

- Introduced learners to fundamental Python programming through practical exercises.
- Explained technical concepts clearly to users with different levels of technical knowledge.
- Provided individual guidance and problem-solving support.
- Adapted explanations and teaching methods to different user needs.

ICT TEACHER

Huda Integrated School – Nairobi | January 2016 – January 2022

- Taught digital skills, basic IT concepts and computer literacy.

- Established and managed a computer laboratory with 20 PCs.
- Managed and supported the school network.
- Installed and maintained computers and software within the school environment.
- Supported staff and students with computer, software and connectivity problems.
- Provided technical assistance to users with different levels of IT knowledge.
- Helped maintain a reliable and functional digital learning environment.
- Combined technical responsibilities with communication, coordination and user support.
