

ZEKI TAZEGUL

IT PROFESSIONAL

System Administrator | IT Support Engineer | Desktop & End-User Support

zekitazegul@gmail.com | 06 44955335

Poortugaal – Rotterdam

PROFILE

Motivated and solution-oriented IT Professional with hands-on experience in IT administration, desktop and end-user support, hardware and software troubleshooting, device deployment and school IT environments.

Experienced in supporting Windows-based environments, installing and configuring computers and IT devices, performing Windows updates, software installations, hardware upgrades and troubleshooting technical issues for non-technical users.

Practical experience in managing and supporting a school computer environment, including a computer laboratory with 20 PCs and the school network. Comfortable diagnosing hardware and software problems, preparing devices for use and providing practical technical support.

Additional experience as a Software Tester / QA Engineer within a professional Enterprise Application Project, providing a strong understanding of software development, APIs, databases, Git, CI/CD, troubleshooting and structured problem-solving.

Currently developing knowledge of Microsoft Intune and Microsoft 365 / Microsoft 365 E5, with a strong interest in endpoint management, system administration and modern Microsoft-based IT environments.

NETWORKING & IT INFRASTRUCTURE

Basic Network Administration | LAN | Computer Networks | Network Troubleshooting | Network Devices | School Network Management | Connectivity Troubleshooting | IT Infrastructure Support

HARDWARE & SOFTWARE

Laptop Repair | PC Hardware | Component Replacement | Hardware Upgrades | Operating Systems | Software Installation | System Configuration | Technical Troubleshooting | Preventive Maintenance

DEVELOPMENT & TECHNICAL

Python | Java | TypeScript | JavaScript | SQL / MySQL | HTML | CSS | REST APIs | OpenAPI | Git | GitHub | GitHub Actions | Playwright | Postman | k6

IT & SERVICE MANAGEMENT

Jira | Incident Troubleshooting | Problem Analysis | Root-Cause Analysis | User Support | Technical Documentation | Structured Problem Solving | Agile | Scrum

PROFESSIONAL EXPERIENCE

ICT ADMINISTRATOR

Wereldwijd Basisschool – Rotterdam | April 2024 – Present

- Provide daily IT and end-user support to staff and users within a school environment.
- Diagnose and resolve hardware, software and general technical problems.
- Install, configure, maintain and deploy computers and other IT devices.
- Prepare computers and devices for users and ensure they are functional and ready for use.
- Perform Windows updates, software installations, system configuration, repairs and hardware upgrades.
- Troubleshoot recurring technical issues and identify practical solutions.

- Support non-technical users with computers, software and everyday IT-related problems.
- Maintain the reliability and usability of IT equipment within the school environment.
- Apply a structured troubleshooting approach to identify the cause of technical problems and resolve them efficiently.

SOFTWARE TESTER / QA ENGINEER

Motopp – Amsterdam | 2026

Completed an IT traineeship with practical experience as a Software Tester / QA Engineer within a real-world Enterprise Application Project (EAP).

- Worked within a professional software development and Agile/Scrum environment.
- Analyzed application requirements and User Stories and translated them into structured technical test scenarios.
- Investigated application failures and unexpected system behavior using a systematic troubleshooting approach.
- Performed API testing and validation using Postman, OpenAPI and REST APIs.
- Worked with databases and SQL / MySQL as part of application testing and troubleshooting.
- Used Git, GitHub and GitHub Actions for version control and automated workflows.
- Worked with Playwright and TypeScript for automated UI and API testing.
- Performed functional, regression, integration and end-to-end testing.
- Investigated defects, performed root-cause analysis and documented findings in Jira.
- Collaborated with developers to investigate technical problems and verify fixes.
- Used k6 for load, stress and soak testing and analyzed performance results.
- Used AI tools such as ChatGPT and Claude Code to support troubleshooting, technical investigation and development workflows while maintaining independent validation and critical thinking.

ADDITIONAL TECHNICAL EXPERIENCE

HARDWARE & SOFTWARE SUPPORT

Motopp – Amsterdam | 2026

- Repaired and investigated defective laptops and computer hardware.
- Performed component checks, hardware upgrades and component replacements.
- Tested repaired devices to verify functionality and reliability.
- Prepared devices for reuse after successful testing and troubleshooting.
- Applied systematic troubleshooting methods to identify hardware and software problems.
- Worked independently to investigate technical issues and determine practical solutions.

VOLUNTEER PYTHON INSTRUCTOR

AZC Echt | April 2023

- Introduced learners to fundamental Python programming through practical exercises.
- Explained technical concepts clearly to users with different levels of technical knowledge.
- Provided individual support when learners encountered technical or programming problems.
- Developed a structured and patient approach to technical support and problem solving.

ICT TEACHER

Huda Integrated School – Nairobi | January 2016 – January 2022

- Taught digital skills, basic IT concepts and computer literacy.
- Established and managed a computer laboratory with 20 PCs.
- Managed and supported the school computer network.
- Installed and maintained computers and software used in the school environment.
- Supported staff and students with computer, software and connectivity problems.
- Provided practical technical assistance to users with different levels of IT knowledge.

- Helped maintain a functional and reliable digital learning environment.
